Abstract (en)
[origin: WO2016059562A1] The present invention relates to a floor scrubbing machine (1), more particularly to a floor scrubbing machine for professional use. The invention advantageously provides to exploit the elements already present in the floor scrubbing machines of the traditional type - such as separate tanks (5, 7) for supplying fresh cleaning liquid and for collecting polluted cleaning liquid, and batteries or equivalent electrical supply means (11) - and to supplement the machine with auxiliary units (15, 17, 23, 25) increasing the versatility of the floor scrubbing machine and allowing to effectively clean also narrow spaces and vertical walls, which could not be accessed by a conventional floor scrubbing machine.
