Abstract (en)  
[origin: WO2016058036A1] An apparatus (10) for launching a ball is disclosed. An embodiment of the apparatus includes a ball launching unit ( 100) including a port (114) for ejecting a ball and a support (20) for supporting the ball launching unit. The ball launching (100) unit is pivotably coupled to the support (20) to permit angular adjustment of the ball launching unit about a horizontal axis of rotation (5) to vary a launch angle of an ejected ball, and wherein the horizontal axis of rotation (5) intersects the port (114).
