Abstract (en)  
[origin: WO2016058716A1] The invention relates to a shopping terminal (1) for outputting a payment code (2) related to a product for purchasing an activated code (3) at a checkout point (4) for later acquiring the product corresponding to the activated code (3), comprising: a touch-controlled, in particular lower, control screen (5) for displaying and selecting the products that can be purchased, and a, in particular upper, remotely controlled display screen (6) for outputting product-related images and/or image sequences.
