Abstract (en)

[origin: EP3208349A1] A machine for colouring miscellaneous articles of leather and leatherette comprises: a supporting frame (3) and a colouring unit (2), supported by the frame (3) and operated by a driving system (4), comprising a colouring head (5), adapted for applying a layer of liquid colour directly in contact with the article being processed, a tray (6) for collecting the colour adapted for containing the colour to be deposited in the article and a device (7) for transporting and dosing the colour on the colouring head. The colour collection tray (6), movable relative to the colouring head (5), comprises a basin (8), preferably disposable, insertable within the same.
