Abstract (en)

[origin: WO2016062803A1] The invention relates to a fin stabilizer (1) for stabilizing water vehicles, comprising a pivotable stabilizing fin (2), a fin box (6) for receiving the stabilizer fin in the pivoted state, and at least one covering element (8) for at least partially covering a fin box opening, through which the stabilizer fin exits and enters the fin box during swiveling in and out, wherein the at least one covering element (8) is resilient. The invention also relates to a covering element for a fin box opening and a water vehicle having at least one fin stabilizer.
