Abstract (en)

[origin: WO2016062696A1] The invention especially relates to a self-adhesive film (1) for fixing an elastomer patch (10) during the vulcanization of an elastomer component. The elastomer component can in particular be a motor vehicle tire (40) or a cavity lining (120). The film (1) can comprise a supporting layer (2) and an adhesive layer (3). The adhesive layer (2) can have a predetermined manufacturing adhesiveness at room temperature and ambient pressure and a predetermined peel strength at a vulcanization pressure and a vulcanization temperature.
