Abstract (en)  
[origin: WO2016065131A1] In some embodiments, a computer implemented method of processing messages may include creating a gallery using messages received from user devices; scanning the messages to identify a selected message of messages; receiving, from an owner of the brand, a prioritization of the selected message; prioritizing, in response to the prioritization, the selected message in the gallery; and supplying the gallery to a user device for display to a user of the user device.
