Abstract (en)

[origin: ES2631005A1] Extendable arm of traction of the front bar of traction of an awning and procedure of assembly of said arm. Extendable arm (b) of traction of the front drawbar of an awning, comprising a traction element (1) provided with an elastic element (13), in which the traction element (1) comprises a section (14) of adjustable length between one of its ends (12) and the elastic element (13), the length (14) being of adjustable length provided with a threaded rod (141) and a threaded tube (142) cooperating with the threaded rod (141). The invention also relates to a manufacturing and assembly process in which the ends of the traction element (1) are anchored and the threaded rod (141) is threaded into the threaded tube (142) until a desired tension of the elastic element is achieved (13) (Machine-translation by Google Translate, not legally binding)
