Abstract (en)

[origin: WO2016066529A1] The invention relates to a method and a container for the preservation of cosmetic products, such as in particular creams or fluids, and/or for the activation of active ingredients or active ingredient components contained in such cosmetic products, wherein the product received in a container is subjected to light of a defined wavelength by means of a LED device (20) which is disposed at a removal device of the container and above a product surface.
