Abstract (en)

[origin: WO2016071739A1] A capsule (10) for the preparation of beverages, particularly Turkish coffee, provides a container (11) and a lid (12) for closing the container, wherein the container (11) is suitable to accommodate a powdered product and wherein the making of the beverage is carried out by means of pressurized hot water passing through the lid (12) and the inside of the container (11) and the beverage is delivered through the bottom of the container; water conveying elements (17) and apertures (19) for the water to pass from the outside to the inside of the container (11) are provided in the lid (12); the water conveying elements (17) are annularly arranged along the lid (12) and are associated with the apertures (19) in order to create a swirling motion of the water within the container (11). This capsule (10) results to be constructively and operatively simple and is particularly suitable for the preparation of quality Turkish coffee.
