Abstract (en)

[origin: EP3216563A1] A cup grinding wheel (10) for working slab edges, which comprises: - a shaped backing pad (11) for fixing to a spindle, - an abrasive annular body (12), fixed to the shaped backing pad (11), with a cylindrical lateral face (13) and a front working face (14). The abrasive annular body (12) comprises a continuous external abrasive crown (15) and a segmented internal abrasive crown (16), and has an annular curvilinear channel (17) that extends on the front working face (14) so as to separate the continuous external abrasive crown (15) and the segmented internal abrasive crown (16).
