Abstract (en)

[origin: WO2016074789A1] The present invention relates to a method for verifying the validity of a ticket (11), in which method information is transmitted by a checking entity (16) to a mobile device (10). A code (13) is calculated on the basis of this information, of a derived key and also of a characteristic specific to the mobile device (10), the code being subsequently verified by the checking entity (16).
