Abstract (en)
Disclosed herein is an assembly-type ornament. The assembly-type ornament includes: a male body placed on an outer surface of a coupling object having a mounting hole formed therethrough and including an insert protruding from one surface thereof to be inserted into the mounting hole and a locking groove formed along an outer circumferential surface of the insert; and a female body placed inside the coupling object and including a holder protruding from one surface thereof and formed with an insertion hole receiving the insert and a locking protrusion formed on an inner circumferential surface of the holder to be engaged with the locking groove.
