Abstract (en)

[origin: CN107201632A] The invention relates to a method for operating a water-carrying household appliance 1 with a lye container 2, a drum 3 for accommodating laundry items 4, a drive motor 5 for the drum, a speed-controlled pump 18 which is connected to the lye container 2 via a lye channel 23, Wherein a rotational speed n_p of the speed-controlled pump 18 is varied as a function of the density p of the conveying medium. (DE). The invention also relates to a water-conducting household appliance 1 suitable for carrying out the method.
