Abstract (en)  
[origin: WO2016079273A1] The invention relates to a device for producing adhesive labels, in particular in a self-service area, for example of a drug store. The device comprises a printer (11) for printing a printing pattern based on user inputs onto an adhesive film, a cutting apparatus (13) for cutting the adhesive film (14) along a specified cutting pattern, which can be selected by a user, and a transferring apparatus (12) for automatically transferring the printed adhesive film from the printer (11) to the cutting apparatus (13), wherein the transferring apparatus (12) comprises a first moving unit (16) for automatically moving the printed adhesive film in a forward direction from the printer (11) to the cutting apparatus (13). A control apparatus controls the automatic transfer of the printed adhesive film from the printer (11) to the cutting apparatus (13).
