Abstract (en)

[origin: WO2016079283A1] The invention relates to a container processing installation (1) and to a method for processing containers (5). The container processing installation comprises a printing device (20) for printing containers (5) with a label image (6), and a measurement device (10; 15) for measuring a radiation power of a lamp (21) that can be used to dry a label image (6) which has been printed onto the container (5) by means of said printing device (20), said measurement device (10; 15) and lamp (21) being arranged such that they can move relative to one another.
