Abstract (en)
[origin: WO2016083339A1] The present invention relates to a unit for applying a cosmetic product for an applicator, said application unit comprising a substantially longitudinal holder (34) comprising a first portion (38) suitable for being secured to the applicator and a second portion (48) that forms at least one compartment (64) for receiving the cosmetic product, and a body (36) of cosmetic product (P) to be applied to the human keratin materials, said cosmetic product being different from a material (94) that forms the holder. An outer surface (68) of the cosmetic product body includes at least one longitudinal bulge (70, 72) that extends in a continuous manner substantially over the entire second portion of the holder.
