Abstract (en)

[origin: WO2016083034A1] The invention relates to a method for operating a plurality of vehicles, wherein navigation data for an autonomous navigation of a first vehicle in a parking area are sent to the first vehicle via a communications network, wherein the first vehicle is assigned as a guide vehicle to a second vehicle, which first vehicle the second vehicle is to autonomously follow, wherein, while the second vehicle autonomously follows the guide vehicle during the autonomous navigation of the guide vehicle in the parking area, a target signal is sent to the second vehicle via the communications network, that the second vehicle vehicle is to cease following and park in a target position.
