Abstract (en)
[origin: WO2016083027A1] The invention relates to a method for monitoring a car park having a region reserved for autonomously driving vehicles, comprising the following steps: receiving an access request assigned to a person for the reserved region; checking whether the person is authorised for access to the reserved region; granting access if the person is authorised for access; monitoring a behaviour of the person in the reserved region. The invention also relates to a corresponding device, a corresponding system and a corresponding computer program.
