Abstract (en)

[origin: WO2016087344A1] The invention relates to a hand-held power tool (100), in particular a hammer drill or combination hammer, comprising a tool housing (90), which has a receiving recess (80) designed to replaceably receive a storage battery (200) or a power supply unit (300), the hand-held power tool (100) comprising an electric drive motor (70) having a cooling fan (60) and a first vent portion (50) which is located on the tool housing (90) outside the receiving recess (80) and through which a volume flow (V) generated by the cooling fan (60) can be guided. The tool housing (90) has a second vent portion (40) which is different from the first vent portion (50) and which is located in the receiving recess (80) and through which the volume flow (V) generated by the cooling fan (60) can be at least partially guided.
