Abstract (en)

[origin: WO2016087224A1] The present invention relates to a laundry treatment appliance (100) comprising a laundry drum (105) for receiving laundry (125), a washing tub (103) for receiving the laundry drum (105), a first feed element (107) for feeding water mist into the washing tub (103), a second feed element (109) for feeding ozone into the washing tub (103), and a third feed element (111) for feeding an additive into the washing tub (103). The laundry treatment appliance (100) comprises a program selection device (113) for selecting from a plurality of selectable laundry treatment programs, wherein the plurality of selectable laundry treatment programs comprises a first selectable laundry treatment cycle in which only one of the feed elements (107, 109, 111) can be activated. The laundry treatment appliance (100) comprises a laundry treatment cycle controller (117) for executing the selected first laundry treatment cycle.
