Abstract (en)

[origin: WO2016087085A1] The present invention relates to a household appliance (1) comprising a control panel (2), an on/off button (3), a program selection knob (4) that has a program (P1, P2,...) selection function, a start/pause button (5) that enables the selected program (P1, P2,...) to be started and paused if desired, more than one auxiliary function button (6) that determines the auxiliary functions to be executed and a display (7). The program selection knob (4) is provided with marked programs (P1, P2,...), each of which symbolizes a character (1, 2, 3, A, B, C,...) such as numbers or letters. An encrypted mode button (8) is disposed on the control panel (2) and a control unit (9) provides that the user defines a code by turning the program selection knob (4) to select the programs (P1, P2,...) and arranging the characters (1, 2, 3, A, B, C,...) symbolized by the programs (P1, P2,...) on the display (7).
