Abstract (en)

[origin: WO2016093961A1] A method of making an article of footwear and a resulting article of footwear are described. An article of footwear includes an upper with a first braided structure, a second braided structure, and an overlay system. The overlay system is bonded to the first braided structure and the overlay system is bonded to the second braided structure. The overlay system may be more resistant to stretching than the first braided structure and the overlay system may be more resistant to stretching than the second braided structure.
