Abstract (en)
[origin: WO2016091782A1] The invention relates to hair treatment products which contain, in relation to their respective weight, 0.0001 to 20 wt.-% of at least one oligopeptide which has at least one amino acid sequence Glu-Glu-Glu (I), the amino group being free or protonated and the carboxyl groups being free or deprotonated, and 0.0001 to 30 wt.-% of a methionyl methionine. The hair treatment products containing methionyl methionine and certain oligopeptides have an improved positive effect on hair and the hair follicle.
