Abstract (en)  
[origin: US2017274293A1] A child play structure comprising: a main plate having a max length greater than 58 cm or 80 cm and a max height greater than 58 cm or 80 cm and being arranged at an angle of less than 20 degrees to the vertical, a first side plate having a max length greater than 50 cm and a max height greater than 40 cm and being arranged at an angle of less than 20 degrees to the vertical, wherein said first side plate is fastened to the main plate in such a way that: the first side plate forms a fixed angle to the main plate of between 60 and 90 degrees and at least 30% of the max length of the first side plate extends past each side of the main plate. In this way a play structure is provided which has a very high play value and a very high stability with a low use of materials.
