Abstract (en)

[origin: WO2016097294A1] There is provided an oral smokeless moist snuff product comprising: (a) an oral smokeless moist snuff composition comprising: -disintegrated plant material, -one or more salts selected from the group consisting of sodium chloride, sodium carbonate, potassium carbonate, sodium sulphate, potassium sulphate, sodium lactate, potassium lactate and any combination thereof, and -water, wherein the total amount of the one or more salts is within the range of from about 15 % by weight to about 35 % by weight based on the total weight of water and total weight of the one or more salts in the oral moist smokeless snuff composition, wherein the total amount of moisture is within the range of from about 35 % by weight to about 60 % by weight based on the total weight of the oral smokeless moist snuff composition; (b) particles comprising a flavorant and a cellulose-derivatized polymer selected from the group consisting of hydroxypropyl methylcellulose, hydroxypropyl cellulose, methyl cellulose and any combination thereof, wherein the amount of said particles is within the range of from about 1 % by weight to about 25 % by weight based on the total weight of the oral smokeless moist snuff product.
