Abstract (en)

[origin: WO2016096247A1] A method of starting-up a pump for providing a flow of liquid in a brewing device, the method involving applying a target voltage to the pump in order to achieve a target flow rate, the method involving employing a start-up controller adapted to apply an excess voltage, in excess of the target voltage, and in less than one second from applying the target voltage, until a flow rate is detected, followed by reducing the voltage until the target flow rate is reached.
