Abstract (en)
[origin: WO2016096408A1] A retaining device is proposed for a hand tool case (12), with a carrier unit (14) which is intended for bearing the hand tool case (12) in a bearing region (16), with a charging module (18) which is intended for transmitting energy wirelessly into the hand tool case (12), and with a guide unit (20) which bears the charging module (18) movably with respect to the carrier unit (14).
