Abstract (en)
[origin: WO2016090116A1] An ambulatory surgical center can include a hybrid operating room. The hybrid operating room can include at least one lead-shielded wall, a floor, and a ceiling. The ambulatory surgical center can also include an imaging device disposed in the hybrid operating room. The ambulatory surgical center can further include an operating table disposed in the hybrid operating room. The ambulatory surgical center can additionally include a power room adjacent to the operating room. The power room can include a power supply for the imaging device. The ambulatory surgical center can also include a conduit from the power room to the imaging device configured to deliver power to the imaging device.
