Abstract (en)

[origin: WO2016095893A1] The invention relates to a slide ring seal (1) comprising a housing arrangement (2), a sprung counter ring (3) and a slide ring (4) slidably associated with the counter ring. The housing arrangement comprises a first movable housing element (5); and a second housing element (6) which can be locked in position. According to the invention, the housing arrangement consists at least partially of a plastic and/or a composite material. The invention further relates to a method for producing a slide ring seal.
