Abstract (en)

[origin: US2017225861A1] Package block (3, 5) consisting of individual packages (1, 2) that are mechanically coupled together and can be separated from one another by a shear force acting along the respective parting joint (11) and can be sealed medically tight at least in the vicinity of their container openings (14) by a continuous label strip (17), wherein the continuous label strip (17) consists of individual labels (18-20) connected to one another across parting edges (32), and that the parting edges (32) are aligned with the parting joints (11) between the individual packages (1, 2).
