Abstract (en)

[origin: EP3238560A1] Provided is a footwear knitting method for knitting footwear that partially has a two-layer structure. The footwear knitting method is a method for knitting footwear (1) provided with a base knitted fabric portion (2) that has a foot insertion opening (5), and is shape of an item of footwear, using a flat knitting machine. The footwear knitting method includes: starting knitting of the base knitted fabric portion (2) from a toe side or a heel side of the base knitted fabric portion (2) to complete the base knitted fabric portion (2) with a left side part and a right side part of the base knitted fabric portion (2) facing each other in a front-back direction of needle beds; knitting an additional knitted fabric portion (3) that is separate from the base knitted fabric portion (2), and is bag-shaped with one end open and the other end closed, before or during the knitting of the base knitted fabric portion (2); and joining, using double stitches, a part of an opening edge of the additional knitted fabric portion (3) with a toe-side edge part or a heel-side edge part of an edge of the foot insertion opening (5) of the base knitted fabric portion (2).
