Abstract (en)
The invention relates to an awning's ceiling structure including a pergola (1), a ceiling board one (2) which is connected to said pergola (1), a ceiling board two (3) and a ceiling board three (4). Ceiling board one (2), ceiling board two (3) and ceiling board three (4) can form a sequentially stepped downward slope. Ceiling board two (3) and ceiling board three (4) are slide connected to the pergola (1), and can be successively stacked underneath ceiling board one (2) after sliding. Ceiling board one (2) is slide connected to the pergola (1), and can be successively stacked above ceiling board two (3) after sliding.
