Abstract (en)  
[origin: WO2016107990A1] The invention relates to a method for manufacturing footwear (1), said footwear comprising at least one shell (21) the shape of which is set by external heating, the manufacturing method comprising at least one reference step in which a first shell (21) is placed onto a form (73), the first shell (21) comprising at least one at least partially hot-melt or thermoformable material, the form (73) extending lengthwise from a rear end (74) to a front end (75), widthwise between a side edge (76) and a medial edge (77), and vertically from a bottom (78) to a top (79). The manufacturing method comprises at least one manufacturing step, subsequent to the reference step, the manufacturing step comprising at least one operation of hot pressurization of at least one portion of the surface of the first shell (21) arranged on the form (73).
