Abstract (en)

[origin: WO2016107771A1] The invention relates to a means of transportation, a user interface and a method for defining a tile (13) on a display device (2) of a user interface (1). The method comprises the following steps: displaying (200) a tile grid (11) comprising a number of cells (12) on the display device (2) in an operating mode; detecting (300) a user gesture, in particular a swiping gesture, in contact with a touch-sensitive surface in relation to at least one cell (12); and, in response, defining (400) a tile (13) on the positions of those cells (12) that have been dialled by the user gesture in a predefined manner.
