Abstract (en)
[origin: WO2015103665A1] A sign assembly (2) for use on a road (8) has a support (6) arranged to be secured to the road (8) and a sign (6) configured to be detachably coupled to the support (6). The sign (6) has a non-planar portion is received in a slot (26) formed in the support (6). The assembly (2) is arranged so that the sign (4) returns to a standing position after impact while the support remains secured to the road and the sign (4) remains coupled to the support (6).
