Abstract (en)

[origin: WO2016113180A1] The invention relates to a multi-pack (2) having at least two containers (4), which are connected to each other by means of an adhesive joint (6). In order to propose a multi-pack in the case of which a container can be removed from the multi-pack with minimal application of force, the containers according to the invention have a height and the adhesive joint is arranged in the lower half of the containers with respect to the height.
