Abstract (en)

[origin: US2017332767A1] A bottle for a cosmetic product is disclosed. The bottle is capable of occupying two positions, an opened position and a closed position. The bottle includes a body that extends along a main direction and has a distal end and a proximal end, and a side wall located between the distal end and the proximal end. The bottle also includes a cover, a wiper, opening and closing means located on the cover and on the body. The opening and closing means are positioned at a distance from the proximal end and from the distal end.
