Abstract (en)
[origin: WO2016125100A1] The present Invention relates to a panel comprising a LED luminaire, which is provided in a recess of the panel, wherein the LED luminaire comprises a housing which contained an LED module, and wherein the housing is provided on the outside with frictional fingers for the frictional incorporation in the recess of the panel. In addition, the present invention relates to a kit for staircase covering and a method for the attachment thereof.
