Abstract (en)
[origin: WO2016128386A1] The present invention relates to multiparticulate formulations comprising herbal extracts, in particular spray-dried herbal extracts, said multiparticulate formulations being prepared by extrusion-spheronization. In particular, said multiparticulate formulations comprise colloidal silicon dioxide at a total concentration of about 1 % w/w to about 5% w/w. Furthermore, the present invention relates to the use of such formulations in human or veterinary medicine as well as methods for preparing such formulations.
