Abstract (en)

The present invention relates to a cosmetics container for preventing a flow of capsule cosmetics. More specifically, the present invention relates to a cosmetics container for preventing a flow of capsule cosmetics, the cosmetics container comprising: capsule cosmetics; a container body for containing the capsule cosmetics; flow prevention protrusions formed on the bottom surface in the container body to prevent flow of the capsule cosmetics; and a mesh net mounted on the top of the container body so that a user can press and rub, at the same time, the mesh net with a puff to break the capsule cosmetics rubbed by the mesh net, thereby discharging and using a cosmetics material filled in the capsule.
