Abstract (en)

Method for operating a laundry treatment appliance (2), comprising a rotatable drum (36) into which laundry can be loaded and which is rotated by a motor (68), whereby a closable door (24) is provided which gives access to said drum (36); with the steps of a) selecting a laundry treatment process; b) loading laundry into said drum (36); c) starting said laundry treatment process; d) estimating the amount of laundry load; e) issuing a notification if the amount of laundry is larger than a laundry load threshold value; f) if the amount of laundry is larger than said laundry load threshold value, waiting for a prescribed waiting amount of time before prosecuting said laundry treatment process, thereby allowing the user to access the drum (36) for changing the amount of laundry load; g) If the laundry treatment process is prosecuted with the laundry load being larger than said laundry load threshold value, maintaining said notification and/or issuing another notification that the amount of laundry is larger than said laundry load threshold value - during said laundry treatment process; - during a final phase of said laundry treatment process; - at and/or after the end of said laundry treatment process.
