Abstract (en)

[origin: WO2016131608A1] The invention relates to a method for producing a domestic appliance component (13 to 18), in which method the component (13 to 18) is printed by way of an inkjet process, wherein a barrier layer is applied as a transparent protective means between a surface (16a, 17a) of the domestic appliance component (13 to 18) and at least one inkjet layer. The invention also relates to a domestic appliance component (13 to 18) and to a domestic appliance (81).
