Abstract (en)

[origin: WO2016132333A1] A rigid package (1) for tobacco articles having a container (2) of parallelepiped shape; a single inner wrapper (3), which encloses a group of tobacco articles, is housed inside the container (2) and has a width that is smaller than the width of the container (2); a lid (5), which is hinged to the container (2); and a collar (12), which is partially arranged on the inside of the container (2) and has a first side wall (13), a front wall (14), a second side wall (15), a rear wall (16), and an intermediate wall (17) which is arranged between the side walls (13, 15) and divides the inner volume of the container (2) into a main compartment (18), which is open on the upper side and houses the inner wrapper (3) and in a second compartment (19) arranged next to the main compartment (18); the collar further has a support element (21), which rests against the intermediate wall (17) of the collar (12) on the opposite side with respect to the inner wrapper (3).
