Abstract (en)
[origin: WO2016134348A1] Compositions, process mixtures, and kits are provided for removing one or more coatings from a polymeric film, e.g., a personal care product packaging or manufacturing film, using a single-phase aqueous solution. The single-phase aqueous solution may include water and a surfactant composition. In one embodiment, a single-phase aqueous solution is provided. The single-phase aqueous solution may be used for removing one or more coatings from a polymeric film. The single-phase aqueous solution may include water. The single-phase aqueous solution may include a surfactant composition.
