Abstract (en)

[origin: WO2016131509A1] The invention relates to an assembly comprising a housing (12) and a cable lug (16) having a retaining opening, wherein the housing (12) has a fastening opening, by which the housing (12) can be fixed on a fastening bolt (18), and a receptacle (14) for the cable lug (16). The receptacle (14) has a positioning device for the cable lug (16), and the cable lug (16) is arranged in the receptacle (14) such that the retaining opening overlaps the fastening opening.
