Abstract (en)
[origin: WO2016131520A1] The invention relates to a method for operating a radio system (12) of a motor vehicle (10), having the steps of: prescribing an area (20) surrounding the motor vehicle (10); ascertaining what digital radio stations (A, B, C) are receivable without interference within this area (20) by means of a reception device (16) of the radio system (12); display of only those digital radio stations (A, B, C) that are receivable without interference within this area (20). The invention relates furthermore to a radio system (12) for a motor vehicle (10) and to a motor vehicle (10) having a radio system (12).
