Abstract (en)

[origin: WO2016132034A1] The invention relates to a method and device for sharing images from a vehicle. The method comprises the following steps: - a gesture recognition module recognizes (201) a first gesture and - in response to the recognition of said first gesture, at least one image is acquired (202) from a camera on board the vehicle, - the acquired image is displayed (203) on a display, - the gesture recognition module acquires (204) and recognizes a second gesture - in response to the recognition of said second gesture, a signal controlling the transmission of the acquired image is transmitted (205) from wireless transmission means.
