Abstract (en)
[origin: EP3260394A1] The flexibility in landing bulk cargo is improved, and a dock is effectively used. A freight container includes an outer shell configured to contain bulk cargo. The outer shell includes an engageable portion 402 engageable with a spreader of a container crane, an opening 403 through which bulk cargo flows into the outer shell, and a filter 404 configured to exhaust air in the outer shell.
