Abstract (en)
[origin: WO2016134966A1] Horizontal form-fill-seal process for manufacturing a multiple pouch comprising: -presenting a pair of opposing sealable films (1); -bonding the films to one another with a substantially vertical seal; -cutting the opposing films to form a multiple pouch section (8) comprising at least one pouch part (D) connected to multiple other pouch parts (C, E) by common side edges; and -compressing the multiple pouch section (8) along a general longitudinal axis of the section so as to provide an opening for each pouch part.
